Top-Up Program for Indian Nurses

Introduction

CESPU Top-Up Nursing course enables you to take your nurse education to the next level. It is designed to offer an opportunity for registered nurses who wish to top this up to an honours degree that underlines your advanced clinical expertise and professionalism.

This course is carefully structured to develop your intellectual and practice skills required to meet the increasingly complex needs in this fast changing world of health service provision, and it also enhance your performance as a nurse and improve the effectiveness of the care you give to patients and their families / carers.

The Top-Up Nursing program enhances your professional expertise to meet the complex challenges of contemporary health care practice as well as it gives you an opportunity of career progression, once degree qualifications are becoming increasingly vital. You'll graduate not only with a degree but with the expertise and confidence to enhance your professional nursing practice and move your career forward.

Successful completion of CESPU Top-Up Nursing course will allow you to work as a nurse in the European market, once the degree is recognized throughout Europe.
